Ah-Counter					

Role description „The purpose of the **Ah-Counter** is to note words and sounds that are used as a *pause filler* by anyone who speaks. During the meeting I will listen for words such as “well“, „so“, „you know“, „now“ etc. Sounds may be “ah, um, er.” I will also note when a speaker repeats a word or phrase *unintentionally*. This is known as a „double clutch“. At the end of the meeting, I will report the number of times that each speaker used these expressions.“

¹ „So, now, and, but, like, you know, well“ ² Double clutch ³ False start (re-starting sentence)
